SAVE ON RISING ENERGY COSTS

The Real Value

We Can Prove to you the Real Value for using efficient air systems

Enjoy Energy Savings up to 20% for the life of the equipment

Resist the lure of low initial cost. It will not provide any savings on your day to day operations...

Remember...you will be operating your air systems for the next 15 – 20 years.

Comprehensive Services For The Complete Air System

At Delta Industries we realize that more than just equipment goes into running an efficient air system. The right equipment is only part of the story.

We can conduct a through evaluation of your system, or simply offer advice and consultation before you make a major investment in your system. It's all part of our commitment to the

market, and our aim to foster strong long-term relationships with all of our customers.

As air system specialists with a comprehensive understanding of the many elements that contribute to the overall effectiveness of your system, we invite you to call on your Delta Sales Representative to discuss your specific needs.

Our Factory Trained Service Personnel...

We Sell Parts And Provide Full Repair And Maintenance Service For All Major Brands Of Air Compressors.
